Dear Parents/Carers

Birds of Prey experience: Monday 2nd March 2020

On Monday 2nd March, we are hoping that we will be able to provide the children with a really memorable, special experience to support their literacy and science learning. We are hoping to bring some bird experts into school with various Birds of Prey for the children to see up close and find out about.

Once the children have had this first hand experience, they will not only be able to write information texts about their chosen bird but will also write a short poem using the voice of their bird. This experience will also be used to support their understanding of the differences between groups of living things and how living things are classified and described.

There is a cost attached to this session which we need to cover through voluntary payments. To enable this event to go ahead, we are asking for a voluntary payment of £3.50 per child. Can I ask that the £3.50 for this event is with us by Friday 28th February to ensure the visit can go ahead. This payment can be made to the office or via the gateway App.

If you have any questions about the event, please do not hesitate to talk to me.

Best Wishes

Iain Franklin KS1 Phase Leader
