Grammar Remote Learning  
(Car Number Plates)

The aim of this game is to make up short sentences using words that begin with the letters from car number plates.

Before playing the game, collect different number plates (approximately six). You could look out your window and see what cars there are on the street.

Now see if you can invent a short sentence using the last three letters from the number plate.

E.g.

B D D  
**Bill Dug Deep**
