

Minibeast Habitats

What did I find?

Where did I find it?

Why did it choose that
place to live?

It likes sun.

It likes shade.

It likes water.

It likes damp places.

It likes dry places.

It likes dark places.

It likes light.

Can you think of any different reasons?

It likes sun.

It likes shade.

It likes water.

It likes damp places.

It likes dry places.

It likes dark places.

It likes light.

Can you think of any different reasons?

Animals and Habitats 1

Why does the zebra have stripes?

Why is the polar bear white?

Animals and Habitats 2

Why has the giraffe developed a long neck?

What is this baby gorilla doing?

Animals and Habitats 3

What do elephants eat?
How do they eat?

Hippos can close their nostrils
like we can close our eyes. Why?
