

We all need to plant a seed

Hello again, everyone!

Did you remember to save the seeds from your apples when you made your crumble? Today, Ching Ching and I decided to plant the seeds. Can you count how many we collected altogether?

1. First of all, we found a little pot, and filled it nearly to the top with compost.
2. We made a hole in the compost, and put two of the seeds in the hole.
3. Then we covered up the hole with compost.
4. Ching Ching had to water the seed to help it start to grow.
5. When you have planted your seeds, you could draw a picture to show what the plant will look like when it is big.
6. Happy planting, everyone!
