Maths Story Remote Learning

Can you make a maths story for the following?

$$3 \times 4$$

For example,  $3 + 3 + 3 + 3$  or simply 12!

How many different methods can you use to express or represent  $3 \times 4$ ? You can use both numbers and symbols.

Extra challenge

Can create other maths stories using  $5 \times 3$ ,  $2 \times 7$  and  $10 \times 9$ .
