

Hello Year 3,

I hope that you have all had a lovely weekend with your families.

Please see learning opportunities for today. Just like on Friday use them as best fits to you.

There are opportunities to become vocabulary detectives by investigating some science words. You can become an expert speller of high frequency words or you have the chance to show off your lightning-fast memory skills by learning number bonds for maths. Bug clubs is also a fantastic resources so have fun doing that too.

If you have not seen Friday's resources yet, make sure and check them out too. There are activities such as a book review, snakes and ladders, dices addition to explore just to name a few.

Please take care and be safe...

See you soon,

Mr Whitty
