Music sheet Tuesday 21<sup>st</sup>  
April

There is a whole world of music out there to like and listen to.

There are loads of radio stations on the internet which will play all sorts of music.

Today, and for the rest of the week, get your adults to put on as many different sorts of music as you can. All of them will give you different sorts of feelings. Tick off the ones you have tried and keep a note of the ones you like and don't like.

Some of them might even get you dancing around the kitchen!

---
