

Key Stage 2 Outcomes 2019-20

Learning together – enjoying success – aiming high – celebrating difference – enriching community

Due to the coronavirus pandemic no statutory assessments of children took place throughout the country and no national data was published enabling comparison. As a result this published document has not been completed for 2019-20.

While internal approaches to assessment were developed and are being maintained throughout the school to prevent us losing sight of any individual child's learning journey during this period these are not for publication.

For a picture of historic outcomes as Key Stage 2 outcomes we would refer you to the outcomes for 2018-19 and 2017-18 which are still published on our website.

Progress – Reading, Writing & Maths
