Maths remote learning

Number bonds

Take a look at this diagram

$$\begin{array}{c} 27 + 5 = \\ \quad \swarrow \searrow \\ \quad 3 + 2 \\ \quad \downarrow \\ 27 + 3 = 30 \\ 30 + 2 = 32 \end{array}$$

How else could you represent  $27 + 5$ ?

Have a go at representing  $18 + 6$

How else could you represent  $18 + 6$ ?
